EDUCATION

Indian Institute of Information Technology, Surat 2023 - 2027
Bachelor of Technology in Electronics and Communication Engineering *CGPA - 8.12/10*
Kendriya Vidyalaya ITBP, Karera, Madhya Pradesh 2019 - 2022
CBSE: Class XII (Senior Secondary) XII: 89.4%
CBSE: Class X (Secondary) X: 94.6%

EXPERIENCE

XelronAI Mar 2026 - Jun 2026
AI Data Training Specialist *Remote*

- Evaluated multi-domain **LLM responses** for factual accuracy, instruction adherence, reasoning quality, and rubric compliance, documenting evidence for each evaluation decision.
- Collaborated with ML engineers and reviewers to reproduce **LLM edge cases**, resolve ambiguous evaluation criteria, and convert recurring model failure patterns into repeatable **evaluation guidelines**.

PROJECTS

ScreenerAI - Smart Hiring & Resume Scoring | AI/ML | *Next.js (React), FastAPI, NLP, Docker* **GitHub**

- Built a role-based hiring platform using **Next.js, TypeScript, FastAPI** and **SQLAlchemy**, with **JWT-authenticated** recruiter/candidate workflows and REST APIs for resume ingestion, screening, semantic search and analytics.
- Designed an explainable five-signal ranking pipeline using **all-MiniLM-L6-v2** embeddings for semantic similarity (40%), combined with skills (35%), experience (15%), education (5%) and formatting (5%); returned matched skills, missing skills and supporting evidence.
- Implemented PDF/DOCX parsing, PII masking, SQLAlchemy-based persistence, **Docker** Compose health checks, and **Pytest/Playwright** coverage for API and end-to-end workflows.

ABHYAAS - Online Examination Portal | Full Stack | *Node.js, SQLite, REST APIs* **Live** | **GitHub**

- **Built and deployed** a **Node.js/SQLite** examination platform covering quiz creation, timed attempts, per-answer persistence, server-side grading, results, leaderboards and analytics through role-protected **REST APIs**.
- Implemented randomized question delivery, deterministic grading, stable leaderboard tie-breaking, single-session enforcement, and audit logging for tab switches, fullscreen exits and restricted browser actions.
- **Self-hosted the platform for a live examination**, using per-answer persistence and deterministic server-side grading to protect attempt data and produce consistent results.

TECHNICAL SKILLS

Languages: C++, JavaScript, TypeScript, Python, SQL
Backend & Web: Node.js, Next.js (React), FastAPI, REST APIs, SQLAlchemy
AI/ML: NLP, Sentence Transformers, Embeddings, scikit-learn
Databases: MySQL, SQLite, MongoDB, PostgreSQL
Developer Tools: Git/GitHub, Pytest, Docker, Postman
Core CS Subjects: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

ACHIEVEMENTS

- **1,500+** algorithmic problems solved across platforms.
- **LeetCode Knight** (peak rating 1992), **Codeforces Specialist** (peak rating 1427)
- Ranked 606th among 40,000+ participants (top 1.6%) in LeetCode Weekly Contest 510.
- Won the AI Prompt Engineering Competition at Google Developer Groups (GDG) Indore in a live prompt-design and problem-solving challenge.
- Qualified for the Regional Round of **HackWithInfy** 2026 after clearing the campus screening round.
